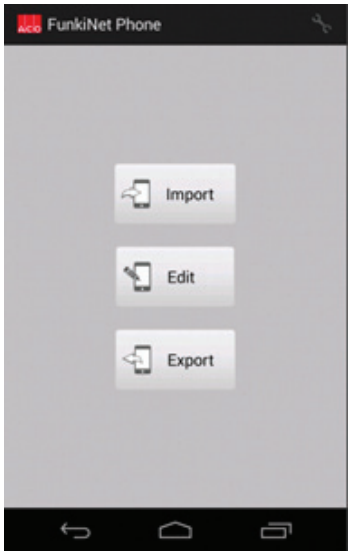
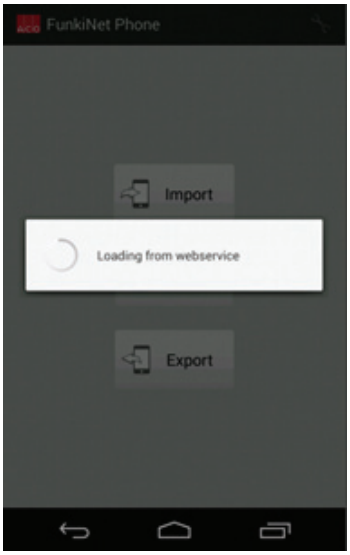
ACO FUNKI

ACO FUNKI





- App for displaying and editing the number of pigs and feed allocation directly in the pigsty
- Developed for tablets and smart phones with Android operating system (4.0 or later)
- Can be installed on all standard Android tablets and smart phones
- Possible to import, edit and export data from one or more FunkiNet liquid feeding computers
- Reduces the time consumption for recording
- Very reliable and easy to operate
- Personal adjustments ensure that only the relevant information is being displayed
- Imported data can be edited without internet connection
- Collects information on which uses that has made the recordings
- High security level - Specific users can be granted with limited access
